Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art, Muromachi et al. (USPN 5,336,565), discloses an automotive window glass having a glass substrate, a layer of transparent resin, a layer of a heat-ray intercepting film, and another layer of glass. Although the reference teaches metal oxynitride layers, it does not seem to teach metal nitride or metal alloy nitride layers. Further, the layers used in the reference do not provide a nickel appearance to the article, since transparent layers are required. The polymer layers used in the reference also do not encompass epoxy urethane materials. Therefore, it is the examiner's position that the claimed articles provide a novel and unobvious step over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melanie D. Bissett whose telephone number is (571) 272-1068. The examiner can normally be reached on M-F 8-4:30.
